PATENT SLATE

MIXED READY FOR USE

A roof may be covered with a very cheap shin-gle, and by application of this state be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than the new shingles without the state, for

The expense of slating new shingles is only about the cost of simply laying them. The paint is rins-risoor against sparks or flying embers, as may easily be tested by any one. IT STOPS EVERY LEAK.

Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy body it is easily applied with a brush.

Therefore it neither cracks in Winter, nor runs in Summer.

On decayed shingles it fills up the holes and pores, and gives a new substantial roof that will last for years. Curano or wappen shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours af er applying. As nearly all paints that are black contain Tan, be sure you obtain our genuine article, which (for shingle roofs) is
